

MEETING REPORT			
☒ Unclassified		☒ Limited Circulation	
Writer :	BUZAUD E	Report Date : 24/09/07	
Visa Responsable :		Meeting Date : 21/09/07	Place : U. Paris XIII

Object : ICACM 2008 Organisation		
Meeting N° 2	Réf. of notification :	
<u>Meeting Members</u> : (name, quality, organism) : O. Cazacu, S. Heise, R. Rogaki, D. Kondo, P. Franciosi, F. Darve, I. Ionescu, R. Dormeival, E. Buzaud <u>Enclosures</u> : E. Buzaud slides <u>Circulation</u> : (différent from members) : None		

Progress / conclusions :

E. Buzaud presents the advance of the organisation of the ICACM 2008 symposium (see attached slides)

Scientific committee:

The scientific committee for ICACM2008 is composed of:

Pr T. Belytschko	Northwestern University	(USA)
Pr D. Bresch	Université de Savoie	(FR)
Pr O. Cazacu	University of Florida	(USA)
Pr F. Darve	INPG	(FR)
Dr R. Dormeival	CEA Valduc	(FR)
Pr P. Franciosi	Université Paris XIII	(FR)
Pr D. Kondo	Université de Lille	(FR)
Dr M. Perez	DGA	(FR)
Pr J. Mazars	INPG	(FR)
Pr A. Molinari	Université de Metz	(FR)
Pr. W. Shyy	University of Michigan	(USA)

Each of the proposed members have provided an official approval for their participation. Row indicates that professeur W Shyy may be replaced.

Schedule (off record):

Hereafter, a simulation of a potential schedule:

K = keynote speaker, I = invited speaker

Eric Pleska: Head of Materials direction at DGA,

C. Common: Head of CEG.

We can see that it would be hard to have more than 10 keynote speakers & 21 invited speakers.

Any comment or suggestion?

Wednesday, 28th May 2007

		Duration	Time
Welcome introduction	E. Pleska	0:05	8:30
Presentation of CEG	C. Common	0:05	8:35
Presentation of ICACM	J. Rogacki	0:05	8:40

End of day 3			17:15

Keynote speakers:

Refreshed list hereafter:

K1	Dr S. Akers	ERDC	(USA)
K2	Pr R.C. Batra	Virginia Tech.	(USA)
K3	Pr T Belytschko	Northwestern University	(USA)
K4	Pr W. Chen	Purdue University	(USA)
K5	Pr A. Combescure	INSA Lyon	(FR)
K6	Pr L. Daudeville	Université Joseph Fourier	(FR)
K7	Dr M.J. Forrestal	Sandia Nat. Lab.	(USA)
K8	Dr D. Grady	ARA	(USA)
K9	Pr F. Hild	ENS Cachan	(FR)
K10	Pr I. Ionescu	Université Paris XIII	(FR)
K11	Pr W. Proud	Cambridge University	(UK)

Possibly due to emails problems, the answer from MJ Forrestal has not been received by E. Buzaud. Some other emails could also have been lost. For this reason, it is planned to request a double validation of the registration, one sent to O Cazacu at REEF, the other at DGA (icacm2008@det.dga.defense.gouv.fr).

Though D Grady may probably be interested by the workshop, his participation is not yet confirmed. **Akers has confirmed his intention to participate during the writting of those minutes (!).**

Action: O Cazacu to seek contact with Grady. Contact with Forrestal to investigate wether he has tried to reply to DGA.

No answer also from M. Ortiz. F Darve indicates that his team has an important defense contract on topics in direct relation with the aims of the conference. Hence, it seems useful to try to contact him.

Action: F Darve to seek contact.

T. Belytschko has accepted to participate to the conference in Rocamadour. However, he has declared difficult for him to produce a 45 min presentation in 2008 that would be sufficiently different from the one provided in 2007.

Invited speakers:

The proposed list is reviewed & discussed. Finally, a consensus is obtained on the following list. US speakers will be invited in priority during October 2007.

I1	M.D. Adley	ERDC (USA)
I2	S Bless	IAT (USA)
I3	G Cusatis	Rensselaer Polytech. Inst. (USA)
I4	K.T. Danielson	ERDC (USA)
I5	A.F. Fossum	Sandia Nat Lab. (USA)
I6	S. Gattu	ERDC (USA)
I7	J.K. Gran	SRI (USA)
I8	G.R. Johnson	NCS Inc. (USA)
I9	E.N. Landis	University of Maine (USA)
I10	D. Littlefield	University of Alabama (USA)
I11	K.T. Ramesh	Johns Hopkins University (USA)
I12	L.E. Schwer	Schwer Consult.(USA)
I13	S. Silling	Sandia Nat Lab. (USA)
I14	A. Vaziri	Harvard University (USA)
I15	T Wierzbicki	MIT (USA)
I16	D. Frew	?
I17	Addessio	?
I18	Ravichandran	?
I19	P. Forquin	Université de Metz (FR)
I20	C. Mariotti	CEA (FR)
I21	J. Petit	DGA (FR)
I22	A. Rouquand	DGA (FR)
I23	C. Denoual	CEA (FR)
I24	N. Burlion	Université Lille (FR)
I25	F. Donzé	Université Joseph Fourier (FR)

- Suggestion from M.J. Forrestal: to invite D Frew, experimentalist, previously at Sandia Nat. Lab. (n°16)
- R Dormeal suggest the invitation of C Mariotti & C Denoual for CEA. LLorca could also be invited as an attendee.
- F Darve suggest the invitation of F Donzé from Université Joseph Fourier
- It is suggested to make a choice between Rusinek & Forquin for LPMM: E Buzaud proposes P Forquin, an experimentalist involved in different studies on brittle materials.
- D Kondo proposes to include N Burlion from Polytech'Lille (tomography on cement paste).
- O Cazacu underlines the fact that ICACM 2007 lacked experimentalists, an effort should be done in this direction for ICACM 2008. The planned number of experimentalist presentations is 7. (Burlion, Daudeville, Landis, Forquin, Akers, Proud, Gran).

Action: D. Kondo to provide coordinates of Addesio & Ravichandran.

Invited participants:

- O. Cazazu suggests to add F Fahroo & Bill Cooper from USAF/Eglin

A preliminary list is proposed hereafter, complementary list of French participants to be determined later:

P1	T. Brantley	Eglin AFB	(USA)
P2	B. Cooper	Eglin AFB	(USA)
P3	F. Fahroo	AFORS	(USA)
P4	M Green	Eglin AFB	(USA)
P5	B. Patterson	Eglin AFB	(USA)
P6	J. Rogacki	REEF	(USA)
P7	P. Church	QinetiQ	(UK)
P8	J. Sheridan	DSTL	(UK)

Hotel:

- Companions: it is suggested to provide details concerning rates on the web site. Contrary to ICACM07, a large number of non-resident companions is anticipated.

Poster:

The interest of printing a poster has been suggested by some members of the scientific committee last June. A layout of a poster created by CEG staff has been proposed for discussion. It was finally decided that the best option is to include the name of all participants on the poster. This requires a large format, type A3 (29.7 cm 42 cm). This also implies the poster to be printed the later possible. The final decision is to provide a few posters to each participant at the registration desk.

Numerous corrections proposed on the poster, modifications taken into account. See attached corrected draft version.

*Action: D. Kondo to provide high resolution logo of Université de Lille.
P Franciosi to provide high resolution logo of Université Paris XIII.*

P Franciosi suggests the idea of an ICACM logo which would be emblematic of the organization & immediately recognizable. E. Buzaud proposes to collect suggestions & transmit to Alexandre Catrain (CEG) who is in charge of the Web site design for ICACM 2008 (off record). Alexandre is able to design a logo but he needs a specification: should the logo recall mechanics, computation, the US-France collaboration? Which colors? Etc...

Here is an example of what Alexandre can do in a few minutes:

All your ideas & proposals are welcome!

ICACM 2008

THE SECOND US-France SYMPOSIUM ORGANIZED BY :

THE INTERNATIONAL CENTER FOR APPLIED COMPUTATIONAL MECHANICS

MAY 28-30, 2008, ROCAMADOUR, HÔTEL DU CHÂTEAU, FRANCE

Scientific committee :

T. Belytschko	Northwestern University (USA)
D. Bresch	Université de Savoie (FR)
O. Cazacu	University of Florida (USA)
F. Darve	INPG (FR)
R. Dormeal	CEA Valduc (FR)
P. Franciosi	Université Paris XIII (FR)
D. Kondo	Université de Lille (FR)
M. Perez	DGA (FR)
J. Mazars	INPG (FR)
A. Molinari	Université de Metz (FR)
W. Shyy	University of Michigan (USA)

Keynote speakers :

S. Akers	ERDC(USA)
R.C. Batra	Virginia Tech. (USA)
T. Belytschko	Northwestern University (USA)
W. Chen	Purdue University (USA)
A. Combescure	INSA Lyon(FR)
L. Daudeville	Université Joseph Fourier (FR)
M.J. Forrestal	Sandia Nat. Lab. (USA)
D. Grady	ARA (USA)
F. Hild	ENS Cachan (FR)
I. Ionescu	Université Paris XIII (FR)
W. Proud	Cambridge University (UK)

Distinguished speakers :

M.D. Adley	ERDC (USA)
S. Bless	IAT (USA)
P. Church	QinetiQ (UK)
G. Cusatis	Rensselaer Polytech. Inst. (USA)
K.T. Danielson	ERDC (FR)
Dr P. Forquin	Université de Metz (FR)
Fossum	Sandia Nat. Lab. (USA)
S. Gattu	University of Florida (USA)
J.K. Gran	SRI (USA)
G.R. Johnson	NCS Inc. (USA)
E.N. Landis	University of Maine (USA)
D. Littlefield	University of Alabama (USA)
C. Mariotti	CEA (FR)
J. Petit	DGA (FR)
K.T. Ramesh	Johns Hopkins University (USA)
A. Rouquand	DGA (FR)
A. Rusinek	Université de Metz (FR)
L.E. Schwer	Schwer Consult.(USA)
S. Silling	Sandia Nat Lab. (USA)
A. Vaziri	Harvard University (USA)
J. Weerheijm	TNO, (NL)
T. Wierzbicki	MIT (USA)

Local organization committee :

E. Buzaud, France, DGA, Centre d'Etudes de Gramat

Contact : icacm2008.ceg@det.dga.defense.gouv.fr

Logos: 

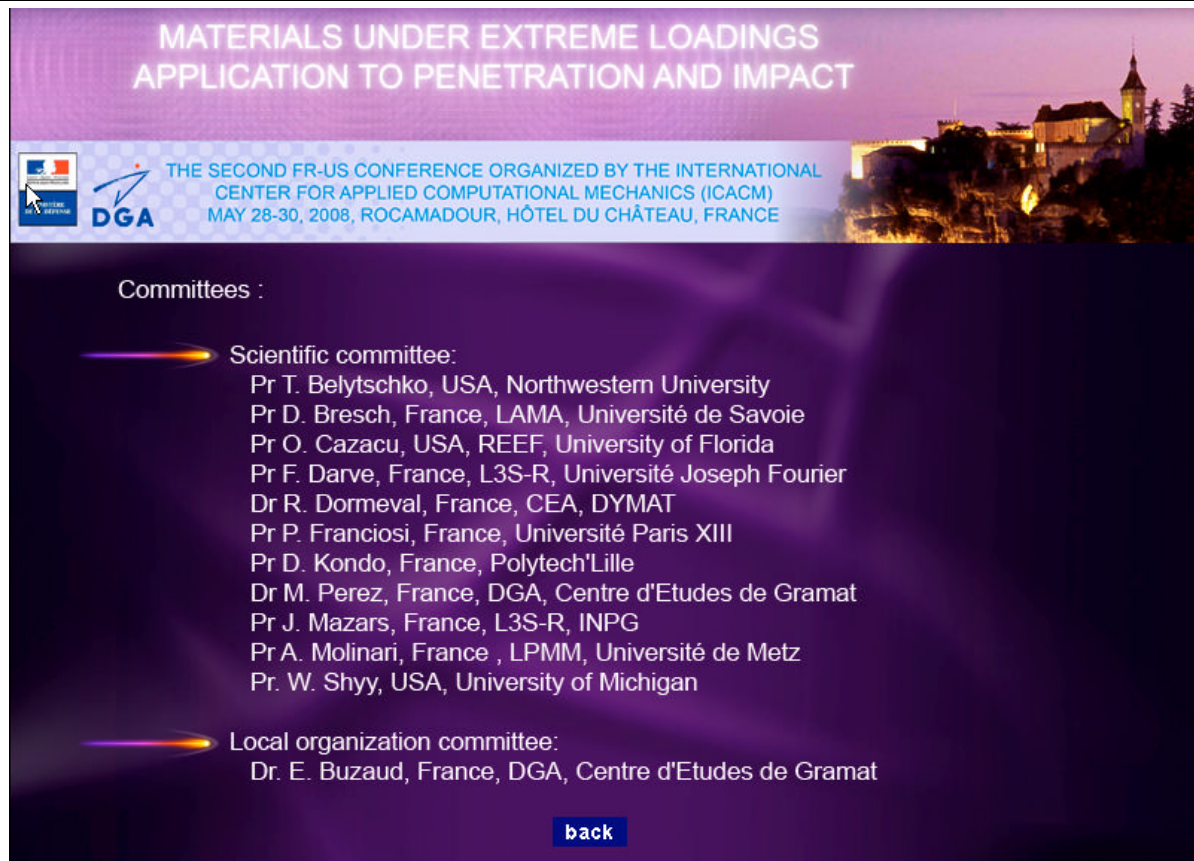

Proceedings:

For ICACM 2008, it is planned to request an extended abstract (between 2 & 4 pages) + slides which will be left at the end of the conference. An important aim, as for ICACM07, is to produce a scientific document. F Darve proposes the writing of a book, each author being invited to produce a paper of 10-15 pages. This could be done with Hermes & J Wiley who have signed a recent agreement. The idea receives a warm welcome, it will be necessary to inform the participants in advance. The papers will be reviewed by the scientific committee itself.

Action: F. Darve to contact Hermes + O. Cazacu to contact ICACM07 speakers.

Web site:

Not discussed during meeting, due to time constraints. Hereafter, slides of the layout. To be incorporated on the UJF web site.

MATERIALS UNDER EXTREME LOADINGS APPLICATION TO PENETRATION AND IMPACT

THE SECOND FR-US CONFERENCE ORGANIZED BY THE INTERNATIONAL
CENTER FOR APPLIED COMPUTATIONAL MECHANICS (ICACM)
MAY 28-30, 2008, ROCAMADOUR, HÔTEL DU CHÂTEAU, FRANCE

Topics :

- Characterization of material behaviour under extreme loading (damage, moisture content, influence of pressure,...)
- Microscopic observations, analysis of damage & mesoscale modelling
- Macroscopic modelling, damage & plasticity
- Penetration mechanics, trajectory instabilities
- Localization, cracking, dynamic fragmentation of materials, modelling & simulation

HOTEL ROCAMADOUR

[Connexion](#)

La famille Marnac, oeuvrant à l'hôtel restaurant du Château*** et au Relais Amadourien** depuis 3 générations, sera ravie de vous accueillir à Rocamadour.

La grande bâtisse de l'Hôtel du Château***, à l'architecture typiquement quercynoise avec sa pierre sèche et son toit pentu à tuile plate, trouve sa place au cœur du parc naturel régional des causses du Quercy.

Vous trouverez à l'hôtel restaurant du Château***, situé dans un écoinç de verdure avec son parc arboré : calme, repos, détente, tout en étant dans le somptueux village de Rocamadour, cité médiévale du XIIème siècle.

Miscellaneous:

Potential topics for ICACM2009 & ICACM2010 have been debated. Though topics like energetics and fluid dynamics have been proposed previously, it appears finally preferable to continue on topics in solid mechanics, due to the will to maintain the same scientific committee. For this reason, a better proposal for 2009 could be the modeling of mechanisms coupling (interface mechanics, multi-physics, phase changes, ...).

Clearly, those strategic issues should be debated at the occasion of extra meetings, possibly the day before ICACM 2008.

OPERATIONS LIST				
(soldées depuis la dernière réunion, en cours ou décidées lors de la présente réunion)
