Object: Official Invitation to ICACM 2008

Dear colleague,

On behalf of the scientific organizing committee, I have the pleasure to invite you to the ICACM 2008 conference entitled:

**MATERIALS UNDER EXTREME LOADINGS
APPLICATION TO PENETRATION AND IMPACT**

28-30 May 2008,

Rocamadour, France

<http://icacm2008.hmg.inpg.fr>

The intent of the workshop is to include contributions (through invitation only) from a broad spectrum of the technical community that is interested in this highly focused area. More details concerning the specific topics of interest can be found in the attached document icacm2008-synopsis.pdf.

Considering your vast experience in topics fundamental to the objectives of the conference, the scientific committee and myself invite you for a keynote lecture of 40 minutes. Your participation will be free of charge. The organization committee offers you also free lodging and catering at the Hôtel du Château, from May 27 17h00 p.m. to May 30, 14h00 p.m. This includes 3 nights, 3 breakfasts, 3 lunches, 2 dinners and the reception dinner. The travel expenses remain at your own cost.

I would be grateful if you could indicate me your intention to participate before the 15th of January 2008. For this, I request you to fill in the registration form and send it back with the abstract of your talk at our email address: icacm2008.ceg@det.dga.defense.gouv.fr. Please, follow the instructions provided in the icacm2008-synopsis document. Any question or request should be addressed directly to the above email address.

Looking forward to welcoming you in Rocamadour for a fruitful ICACM 2008 conference,
With my best regards,
I remain yours sincerely

Eric BUZAUD

On behalf of the ICACM 2008 organization & scientific committees
